

RETHINKING FISCAL POLICY

Lisbon, September 22-23, 2017

Catolica-Lisbon SBE

This workshop is an opportunity to present and discuss fiscal policy research that may be relevant to the Horizon 2020 [ADEMU Project](#).

In recent times, the fiscal policy response to the financial crisis, the European sovereign debt crisis and Brexit are sufficient motivation to rethink fiscal policy in the Union. We invite you to submit research which examines the design of fiscal policy in closed economies, as well as research on how international coordination, and in particular economic and monetary union, can affect the design of policy.

This **ADEMU** workshop is organized by *Catolica Lisbon School of Business and Economics*.

We are inviting papers and (extended) abstracts to be submitted by **May 15, 2017** to: pteles@ucp.pt (**Subject: ADEMU Rethinking Fiscal Policy**).

Programme committee:

- Catarina Reis, Catolica-Lisbon SBE
- Pedro Teles, Banco de Portugal, Catolica-Lisbon SBE, CEPR
